

## The benefits:

For long continuous straight and curved cuts (wide radius)

All metal parts are made of stainless steel

Angled cutter head for greater safety - keep the material at a distance and keep your hand out of the danger zone

Handle made of robust fiberglass - reinforced plastic with a soft material insert

For short and curved cuts (small radius)

ERGO - handle for increased comfort - reduced hand fatigue!

Stainless steel blades

Offset blades

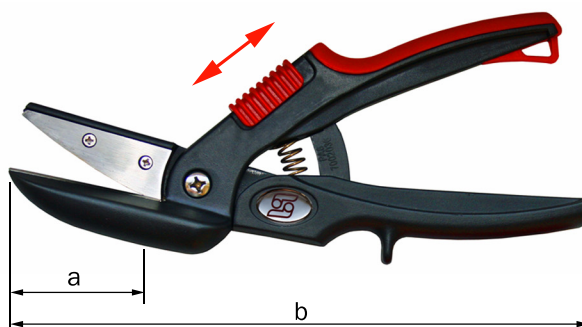

This tools are designed for our jacketing systems of

**SILVERBLADD**

**EKAFOL**

**EKAPLAST**

## Foil cutters

### Foil cutter Multifix straight

#### for straight cuts

a = 50 mm (2")    b = 235 mm (9 ¼")

Package: 7 tools

Unit weight: 0,18 Kg

Total weight: 1,43 Kg / package

Box size: 32,5/12,5/10 cm (L/W/H)

### Foil cutter Combifix angled

#### for small curved cuts

a = 36 mm (1 3/8")    b = 190 mm (7 ½")

Package: 20 tools

Unit weight: 0,11 Kg

Total weight: 2,38 Kg / package

Box size: 25/9,5/19,5 cm (L/W/H)
